

**FOREIGN WIRE PAYMENT  
ADVANCED RATE PAYMENT**

**File Header Record**

**EXAMPLE: XXMMDDYY.001 MMDDYY 01 VENDOR PAYMENTS**

**\*ENDMSG\***

#	Field Name	Type	Length	Start Position	End Position	KFC Validation Rules	Notes
1	File Name	AN	12	1	12	If invalid or missing, reject the file	Should be XXMMDDYY.001, where MMDDYY is current business month, day and year. The file extension ".001" can be incremented if multiple files are processed on the same day, for example ".002". The 2 character alpha beginning is agency specific. Recommend using 2 characters that represent the customer agency's name - this would need to be confirmed with ITS.gov prior to use.
2	Current Date	AN	6	14	19	If invalid or missing, reject the file	Date should match date in file name
3	Batch Sequence Number	N	2	21	22		
4	Descriptive File Title	AN	19	24	43		Type of payments
5	*ENDMSG*	AN	8	1	8		Concludes header record

**Wire Payment Detail Record**

#	Field Name	Type	Length	Start Position	End Position	KFC Validation Rules	Notes
