Navy Cash[®] Flash 10-010

22 April 2010

Subject: **REMINDER ON BATTERIES FOR K22S**

Attention: Disbursing Officer/Supply Officer

During a few of the last Navy Cash grooms it was noted ships are not holding spare K22 batteries. All K22s contain a lithium battery, CR-1220. These batteries are available through the supply system under stock number 9B 6135-01-263-3611 and are the responsibility of the ship for replacement. The batteries have an estimated life span of 2 years. All ships are instructed during functional training and reminded during grooms these batteries must be replaced within 2 years. If the lithium battery is not changed and the battery dies at a time the K22 is holding transactions, those transactions will be lost and unable to be verified without a written log kept by the merchant. Please refer to Maintenance Requirement Card (MRC) 78 NG10 Y.

These batteries are only around \$1.35 each and are well worth replacing especially pre deployment to ensure transactions are not lost and the K22 is usable offline during the entire deployment. If you have any further questions, please do not hesitate to contact the Customer Support Center at navycashcenter@ezpaymt.com or 1-866-6NavyCash (662-8922).
