Navy Cash[®] Flash 10-012

03 June 2010

Purpose: Reminder for changing or adding vending machines

Prior to removal/replacement of a vending machine, please ensure the CAD network cables, cat5 adapter (cat5 cables and adapter that connect the CAD to the network drop box) and CAD power cable are removed for use with the next machine. These power cables do not come with the vending machines but are provided by the Navy Cash Program.

Also keep in mind if an additional vending machine is added, a case should be opened with the Customer Service Center, navycashcenter@ezpaymt.com. By opening a case and notifying of the additional machine, the Program is able to keep track of ship configuration and send out a new CAD and CAD cables for the new machine. This avoids the ship using spares for the added machines and keeps the spares on board to the ship's allowance level.

POC is Edie Johnston, edie.johnston@navy.mil.
